Weather Summary/ Alert:

In the upcoming days light rainfall of 10 mm has been predicted on 11 January. Maximum & minimum temperature may be 14.0-15.0 degree Celsius & 5.0-6.0 degree Celsius, respectively. Wind is expected to blow with a speed of 2-3 km/hr primarily from the North-West from South-East direction. Light to moderate rain is likely to occur at few places on 11 January. Dry weather is likely to prevail during rest of the period. A yellow warning regarding occurrence of thunderstorm accompanied with lightening is likely to occur at isolated places.

General Advisory:

The weather forecast and agrometeorological advisory is regularly updated on the "Meghdoot App" and "Damini App" is also available to get lightning information. Meghdoot and Damini apps can be downloaded from Google Play Store (Android users) and App Center (iOS users). The NDVI composite shows moderate agricultural vigour in the region. The extended range forecast system indicates deficient rainfall and above normal maximum-minimum temperature trend.

SMS Advisory:

As per IMD forecast, light rainfall is expected so all farming operations should be scheduled accordingly. Irrigation and chemical applications should be scheduled as per the forecast.
