Weather Summary/Alert:

In the coming five days, light drizzle of 0.6-0.9 mm has been predicted for 19, 21 and 22 October and dry conditions may prevail on the other days in the region. Maximum & minimum temperature may be 22.0-23.0 degree Celsius & 11.0-12.0 degree Celsius, respectively. Wind is expected to blow with a speed of 2-8 km/hr from the south-east-south and south-east-east direction. Dry weather is likely to prevail from 18 to 22 October, 2024.

General Advisory:

For regular updates on weather conditions in the region, the farmers can get updates from the app "Meghdoot" and lightning update from the app "Damini" available on Google Play Store (Android users) and App Centre (iOS users). The NDVI shows good agricultural vigour in the isolated regions of the state ranging 0.25-0.45. The extended range forecast shows large deficient rainfall and normal maximum-minimum temperature trend during 18.10.2024 to 24.10.2024.

SMS Advisory:

As per IMD dry weather is expected so harvesting of mature produce should be done, dried and stored well.
