### Weather Summary/Alert:

In the coming five days, heavy rain on 20 & 21 July and moderate rain on remaining days may likely occur. Maximum & minimum temperature may range from 21.0 to 23.0 deg C & 14.0 to 15.0 deg C respectively. Wind will blow with a speed of 6.0-8.0 km/hr from the ESE direction. Warning: Thunderstorm accompanied with lightning and intense shower at isolated places on 19 & 20 July and heavy to very heavy rainfall likely to occur at a few places (25-50% area) with extremely heavy rainfall at isolated (upto 25% area) places may occur from 19 to 21 July. As per ERF, the rainfall, maximum & minimum temperature will be normal in the state from 24 to 30 July.

### General Advisory:

Farmers are advised to download the "Meghdoot App" to get past week weather, weather forecast, and agromet advisory and "Damini App" to get lightning information. Meghdoot and Damini Apps can be downloaded from the google play store (Android users) and App Center (IOS users). Rain water should not be given to the animals and maintain proper drainage system in the field and spraying of chemical should not be done.

### SMS Advisory:

In the coming five days, moderate to heavy rain may occur. Warning: very to very heavy rain from 19 to 21 July. Maintain proper drainage system in the field.

### Crop Specific Advisory:

Crop(Varieties)	Crop Specific Advisory
-----------------	------------------------

Crop(Varieties)	Crop Specific Advisory
RICE	Transplanting of paddy should be completed. Weed should be removed from the field before transplanting of paddy. Arrangement for irrigation and proper drainage of water should be done in the field before transplanting of paddy. To control the weeds in transplanted paddy, solution of butachlor (50 EC) @ 3 liter/ 750 liter of water should be sprayed within 3 days of transplanting.
MAIZE	Keeping in view the weather forecast and warning in coming days, farmers are advised, do not irrigate the maize crop sown in the month of June and proper drainage should be maintained in the field.
SOYABEAN	Maintain proper drainage system in the field.
GREEN GRAM	Sowing of green gram should be done in the second fortnight of the month keeping in mind the weather forecast.

#### Horticulture Specific Advisory:

Horticulture(Varieties)	Horticulture Specific Advisory
