Weather Summary/Alert:

In the coming five days weather will remain clear. Maximum & minimum temperature may range from 10.0 to 13.0 deg C & 0.0 to 2.0 deg C respectively. Wind will blow with a speed of 6.0-8.0 km/hr from the NW direction. There is a warning of likely occurrence of ground frost at isolated places in hills from 28 to 30 Jan. As per ERF, the rainfall will be above normal, maximum & minimum temperature will be below normal in the state from 2 to 8 February.

General Advisory:

NDVI & SPI map received from the India Meteorological Department dated indicated that the NDVI ranged between 0.2-0.5 for Nainital i.e. agriculture vigor is moderate to good in the district. SPI map indicates the extremely wet conditions in the district during 30 Dec 2021 to 26 Jan 2022. Farmers are advised to download the "Meghdoot App" to get past week weather, weather forecast, and agromet advisory and "Damini App" to get lightning information. Meghdoot and Damini Apps can be downloaded from the google play store (Android users) and App Center (IOS users). Weather will remain clear in the coming days, so farmers can apply the irrigation & fertilizer in the field.

SMS Advisory:

In the coming five days weather will remain clear. Ground frost may likely occur at isolated places in hills, so the farmers can protect the crops from frost by applying sprinkle irrigation.
